

Fish

For information about the fishing skill and mechanics, see [Fishing](#).
For an index to the completed fish collection, see the [Fish Collection](#) page.
For the guide to catching all fish, see [Fishing Strategy](#).
 See also: [Bait](#), [Tackle](#)

Fish can be caught in oceans, lakes, rivers, and certain underground locations. Most fish can be caught with a fishing pole. The others require Crab Pots to catch. Some fish spawn only at certain times of the day, during certain seasons, or during certain weather. Upon catching a fish, the name of the fish and its length are displayed. Players can keep track of how many fish they've caught and their record lengths in their [Collections](#) menu. Fish can be used as ingredients in [cooking](#) and are required to restore the [Fish Tank](#) in the [Community Center](#).

While players can fish near any body of water, some places have lower rates of success. These areas are more likely to produce [trash](#), most of which can be turned into useful items using the [Recycling Machine](#) which unlocks at [Fishing level 4](#).

All fish can be caught regardless of weather, time, or season using [Magic Bait](#).

History

Fishing Mini-Game

Whenever a fish is hooked, a minigame which allows the player to catch it is triggered. In this minigame, a fish-like icon moves up and down inside a vertical space. The player controls a green bar, which ascends while the left mouse button is pressed and drops while it's not. The green bar bounces when it reaches the bottom boundary of the minigame unless a [Lead Bobber](#) is equipped.

A catch meter increases while the fish is kept inside the green area and decreases while it's not. Once the catch meter is fulfilled, the fish is caught. The fish escapes if the meter becomes empty. If the player is using [Challenge Bait](#), the fish will escape if it leaves the green area three times.

If the player catches a fish without letting it slip outside the green area once (or only letting it slip outside when catching a treasure chest with a [Treasure Hunter](#) tackle equipped), the catch is considered "perfect", and that word is displayed above the minigame. A perfect catch increases the fish quality provided the fish was at least silver quality initially: silver quality fish become gold quality and gold quality fish become iridium quality. It also increases fishing experience by a multiplicative factor of 2.4.

The minigame usually shows no information about what kind of fish has been hooked. The only exception is with [legendary fish](#), which can be seen wearing an orange crown in the fishing minigame. The player can, however, deduce a fish type by observing its [behavior](#), and by knowing the [season](#), [time](#), [weather](#), and location when it was hooked. Players can also use the [Sonar Bobber](#) tackle to see a hooked fish's type.

Upon catching a fish, the name of the fish and its size are displayed. If the player got a new record length for the fish, an animation saying "New record!" is shown. If a player caught a specific fish species for the first time, an animation saying "First Catch!" is shown. Upon catching a legendary fish, a message saying "You've caught one of the legendary fish." is shown.

Tutorial Catch

The first time the player hooks a fish, a tutorial will pop up explaining the controls of the fishing minigame. Only the following fish can be selected by the game for the first-catch tutorial: [Pufferfish](#), [Anchovy](#), [Tuna](#), [Sardine](#), [Bream](#), [Largemouth Bass](#), [Smallmouth Bass](#), [Rainbow Trout](#), [Salmon](#), [Walleye](#), [Perch](#), [Carp](#), [Catfish](#), [Pike](#), [Sunfish](#), [Red Mullet](#), [Herring](#), [Eel](#), [Octopus](#), [Red Snapper](#), and [Squid](#). If the player hooks anything not on this list ([Legendary Fish](#), [Jelly](#), [Trash](#), etc.), a [Sunfish](#) will be hooked instead for the tutorial. This can happen regardless of time, weather, season, or location.

For the tutorial catch, the progress bar does not decrease at all. Therefore, it is impossible for the fish to escape unless the player is using [Challenge Bait](#) or the player cancels out the fish. Each cast will count as a tutorial catch until the player catches their first fish.

Behavior

There are 5 types of behavior that fish can have in the mini-game:

- **Mixed**: These fish use the basic movement pattern.
- **Smooth**: These fish have a more steady movement pattern.
- **Sinker**: These fish have a faster downwards acceleration.
- **Floater**: These fish have a faster upwards acceleration.
- **Dart**: These fish move more randomly with a [2 x difficulty]% higher possible amplitude in both directions, moving erratically up and down the fishing bar.

Fish Types

Fishing Pole Fish

Night Market Fish

These fish can be caught in the submarine ride at the Night Market during  Winter 15-17, while the market is open (5pm – 2am). They can also be caught regardless of weather, time, or season using Magic Bait in the southwest corner of The Beach.

Image	Name	Description	Price	 Fisher Profession (+25%)	 Angler Profession (+50%)	Size (Inches)	Difficulty & Behavior	Base XP	Used In
	Midnight Squid	A strange and mysterious denizen of the ocean's twilight depths.	 100g  125g  150g  200g	 125g  156g  187g  250g	 150g  187g  225g  300g	8-26	55 sinker	21	
	Spook Fish	The huge eyes can detect the faint silhouettes of prey.	 220g  275g  330g  440g	 275g  343g  412g  550g	 330g  412g  495g  660g	8-26	60 dart	23	
	Blobfish	This odd creature floats above the ocean floor, consuming any edible material in its path.	 500g  625g  750g  1,000g	 625g  781g  937g  1,250g	 750g  937g  1,125g  1,500g	8-26	75 floater	28	 Master Fisher's Bundle

In addition to the 3 fish listed above, Sea Cucumber, Super Cucumber, Octopus, and Seaweed can be caught in the submarine. There is also a 0.4% chance (0.9% if using a Curiosity Lure) of catching a Pearl.

Legendary Fish

There are five fish in the game classified as "legendary". These fish are caught in specific places and have a high difficulty. These fish are shown wearing a crown during the fishing minigame. Legendary fish can only be caught once per save file, or once per player in Multiplayer.

The Lost Book named *Secrets of the Legendary Fish* contains the seasons and locations of the legendary fish.

The high difficulty of these fish makes catching them challenging. Higher fishing skills than required just to hook the fish may be necessary, especially from food bonuses (*e.g.*, from Seafoam Pudding). Having the Iridium Rod or Advanced Iridium Rod and using a Tackle such as the Trap Bobber or Cork Bobber can also help. Ultimately, catching these fish can depend more on luck than on good reactions. Simply try again and again until the fish doesn't move too fiercely.

It is impossible to catch these fish while Mr. Qi's Extended Family quest is active because the corresponding Legendary Fish II fish will be hooked instead.

Legendary Fish II

There are five legendary fish II that can be caught during Qi's Extended Family quest. They are caught in the same locations (with season and weather requirements removed) and have the same difficulties as the older generation of fish. Note that the fishing bar is the standard fish bar and not distinctly marked as it is with the original legendary fish. In addition, unlike the original legendary fish, it is possible to catch these fish more than once, and they do not share the same experience multiplicative factor of 5.

It is impossible to catch them when the quest is not active. The percent chances of hooking these fish are the same as for the original legends. Catching these fish is not required to obtain the Master Angler achievement. However, at least four out of five of these must be caught to unlock all of the bobber styles at the Bobber Machine.

Image	Name	Description	Price	 Fisher Profession (+25%)	 Angler Profession (+50%)	Location	Time	Season	Weather	Size (Inches)	Difficulty & Behavior	Base XP
	Son of Crimsonfish	He hatched in the warm summer water, and followed in the footsteps of his father.	 1,500g  1,875g  2,250g  3,000g	 1,875g  2,343g  2,812g  3,750g	 2,250g  2,812g  3,375g  4,500g	East Pier on The Beach. Requires level 5 fishing.	Any	All Seasons	Any	19-21	95 mixed	34
	Ms. Angler	Uses a bioluminescent dangler to attract prey.	 900g  1,125g  1,350g  1,800g	 1,125g  1,406g  1,687g  2,250g	 1,350g  1,687g  2,025g  2,700g	North of JojaMart on the wooden plank bridge. Requires level 3 fishing.	Any	All Seasons	Any	17-19	85 smooth	31

Crab Pot Fish

Fish caught in crab pots are usually normal quality and are worth 5 fishing XP. Crab pot fish will be silver quality if Deluxe Bait is used. Only foraged fish can be of normal, silver, gold, or iridium quality and are affected by the Botanist profession bonus. Some are only catchable using a baited Crab Pot.

All of these creatures can be used as components in the Crab Pot bundle. Crabs drop from Rock Crabs (15%) and Lava Crabs (25%); Clams, Cockles, Mussels, and Oysters can be foraged on the Beach. Between beach foraging and Rock/Lava Crab loot it is possible to complete the Crab Pot bundle without the use of a crab pot. Baiting the rewarded crab pots, however, is only possible by reaching fishing level 2, viewing Linus' 4-Heart cutscene, or acquiring bait from a Fishing Treasure Chest.

Items gathered via foraging or from monster drops will not count towards the Fish collection nor assigned a catch length. They must be caught using a Crab Pot to count. Cockles, Mussels, and Oysters caught using a fishing pole on the Beach Farm will also count towards the collection.

While none of these items can be eaten directly, all crab pot fish can be used in cooking recipes that require a "fish" and some have specific recipes of their own. All Crab Pot fish can also be smoked, which makes them edible. Most catch of normal quality except Crab, Lobster, and Crayfish is worth less than 🍋75g, making it more profitable to turn them into Sashimi rather than to sell these items.(This changes with the Fisher and Angler professions and the quality of foraged items.)^[1]

Image	Name	Description	Price	 Fisher Profession (+25%)	 Angler Profession (+50%)	Location	Trap Chance		Size (Inches)	Used In
							Non-Mariner	 Mariner		
	Clam	There's a chewy little guy in there...	 50g  62g  75g  100g	 62g  77g  93g  125g	 75g  93g  112g  150g	Ocean	9%	14%	1-5	 Chowder

	Periwinkle	A tiny freshwater snail that lives in a blue shell.	 20g  25g	 25g  31g	 30g  37g	Freshwater	21%	33%	1-3	 Strange Bun  Fish Stew
	Oyster	Constantly filters water to find food. In the process, it removes dangerous toxins from the environment.	 40g  50g  60g  80g	 50g  62g  75g  100g	 60g  75g  90g  120g	Ocean	10%	14%	1-5	

Other Catchables

There are some non-junk items players can reel in while fishing. They do not trigger the fishing mini-game but are instead immediately picked up. Each gives 3 [fishing](#) XP when caught and is always standard quality.

All six are displayed in the [Fish](#) section of the collection tab and count towards the four fishing achievements.^[2] However, they are otherwise not considered to be a fish, and therefore cannot be sold to [Willy](#) at the [Fish Shop](#), do not benefit from fish price bonuses, cannot be used in place of "Any Fish" in recipes, and cannot be put in a [Bait Maker](#), [Fish Smoker](#), or [Fish Pond](#).

Image	Name	Description	Price	Location	Used In
	Seaweed	It can be used in cooking.	 20g  25g  30g  40g	• Ocean via Fishing • Beach via Foraging	 Maki Roll  Fish Pond
	Green Algae	It's really slimy.	 15g	Everywhere but the Farm Pond of the Standard Farm	 Algae Soup  Trout Soup  Fish Pond
	White Algae	It's super slimy.	 25g	Mines • Sewers • Mutant Bug Lair • Witch's Swamp	 Pale Broth
	Sea Jelly	A rare jelly found in the ocean.	 200g	Saltwater locations	 Fish Smoker
	River Jelly	A rare jelly found in freshwater.	 125g	Freshwater locations	 Fish Smoker
	Cave Jelly	A rare jelly found in underground lakes.	 180g	Levels 20, 60, and 100 of the Mines	 Fish Smoker

Recipes

All items shown on this page, with the exception of [Other Catchables](#), can be used in the following recipes:

Image	Name	Description	Ingredients	Energy / Health	Recipe Source(s)	Sell Price
	Maki Roll	Fish and rice wrapped in seaweed.	 Any Fish (1)  Seaweed (1)  Rice (1)	 100  45	 The Queen of Sauce 21 Summer, Year 1  Stardrop Saloon for  300g	 220g
	Quality Fertilizer	Improves soil quality, increasing your chance to grow quality crops. Mix into tilled soil.	 Sap (4)  Any Fish (1)	N/A	 Farming Level 9	 10g
	Sashimi	Raw fish sliced into thin pieces.	 Any Fish (1)	 75  33	 Linus (Mail - 3+ )	 75g

When to turn fish into Sashimi

Below is a quick reference table showing when it is profitable to turn fish into Sashimi based on the quality of the fish. Fish that never make a profit when turned into Sashimi are not listed (*e.g.* Crab, Crayfish, Lobster, Legendary Fish). Fish whose sell price is  75g, the same as Sashimi, are also not listed.

Note: All fish are worth x2 more when smoked in the Fish Smoker, consider this when cooking for profit.

Fish	No Profession	 Fisher Profession	 Angler Profession
 Anchovy	Always	Regular, Silver, Gold	Regular, Silver, Gold
 Bream	Regular, Silver, Gold	Regular, Silver	Regular
 Carp	Always	Regular, Silver, Gold	Regular, Silver, Gold
 Chub	Regular, Silver	Regular	Never
 Clam	Regular, Silver	Regular	Never
 Cockle	Regular, Silver	Regular	Never
 Ghostfish	Regular, Silver, Gold	Regular, Silver	Regular
 Herring	Always	Regular, Silver, Gold	Regular, Silver, Gold
 Mussel	Always	Regular, Silver, Gold	Regular, Silver, Gold
 Oyster	Regular, Silver, Gold	Regular, Silver	Regular
 Perch	Regular, Silver	Regular	Never
 Periwinkle	Always	Always	Always
 Rainbow Trout	Regular**	Never	Never
 Red Snapper	Regular, Silver	Regular	Never
 Sardine	Regular, Silver, Gold*	Regular, Silver*	Regular*
 Shad	Regular	Never	Never
 Shrimp	Regular	Never	Never
 Smallmouth Bass	Regular, Silver	Regular	Never
 Snail	Regular	Never	Never
 Sunfish	Always	Regular, Silver, Gold	Regular, Silver, Gold

*Turning Sardines into Dish O' The Sea to temporarily increase fishing level by 3 may be a better choice.

**Turning Rainbow Trout into Trout Soup to temporarily increase fishing level by 1 may be a better choice.

References

- Crab pot contents are determined by CrabPot::DayUpdate. For mariners, there is no chance of junk, and all creatures are equally likely. For non-mariners, there is a 20% chance of junk, then each creature is checked sequentially using the chances specified in Data/Fish.xnb. One result of this algorithm is that the actual chance of finding a given creature is smaller than the value in the input file, because it can only be found if junk items and all previous creatures failed their tests.
- In the game data (Data/Objects.xnb) the type assigned to Seaweed and Algae is "Fish", but it is not assigned the Fish category (-4). The label displayed in-game and most uses are controlled by the category.

History

- 1.1: Added Slimejack and Void Salmon.
- 1.4: Added the ability to catch iridium quality fish with perfect catches. Added Flounder and Midnight Carp. The Legend can now be caught only once per save file. Snails are now a loved gift for Vincent.
- 1.5: Added Lionfish, Stingray, Blue Discus, and all Legendary Fish II.
- 1.6: Clam is now considered a fish. Added Goby, Sea Jelly, River Jelly, and Cave Jelly. Clam is no longer used to craft Speed-Gro. Using Deluxe Bait on a Crab Pot will now result in silver quality fish. Sonar Bobber can now be used to see what fish is on the line. Legendary Fish can no longer be selected for the first-catch tutorial.
